FY2009 University of Missouri All Funds Budget Summary

The Board of Curators approved a FY2009 funds original budget with revenue of approximately \$2.5 billion dollars. This budget included an 11%, or \$247 million, increase in marginal revenues over the FY2008 budget and a 4.6%, or \$105 million, increase in expenditures resulting in a budgeted increase in net assets of \$142 million. The primary driver in the increase in net assets was an estimated \$105 million margin revenue increase from the unrealized and realized gains in endowment and investment income due primarily to a projected recovery from losses and projected losses in FY2008.

University of Missouri System FY2009 Operating Budget

Introduction and Overview

Introduction

The University of Missouri System Operating Budget Book presents information on total sources and uses of the university's current funds. Sources include estimated beginning balances and anticipated revenues. Uses include expenditures, transfers, and planned ending balances. Current funds include resources of the University that are expendable for any purpose directly related to the primary missions of the University, i.e., instruction, research, and public service, as well as related support services. Current funds can be divided into restricted and unrestricted funds. Restricted funds are those that are restricted in use by the donor or supporting agency. Excluded from this document are loan funds, plan

security, licenses and maintenance, increases of compliance and training, libraries and additional required M&R expenditures to meet the 1% of replacement value of facilities policy.

- Investment for other strategic priorities are campus specific commitments primarily for academic priorities. These new investments will be reflected in the budget in various expenditure categories as some of the expenses are for personnel and others are for equipment and operating expenditures.

The budgets reported in this document are based on the original detail budgets for the University as entered into the PeopleSoft general ledger financial system as of June 30, 2008.

Withholding of State Appropriations

State appropriations for the University of Missouri are subject to a 3.0% withholding by the State of Missouri. The University's FY2009 budget was developed and entered into the University's financial system based on the assumption that state appropriation revenues would equal 97.0% of state funds appropriated to the University.

FY2009 Current Funds Budget Summary

For fiscal year 2009, the University of Missouri's current funds budget totals almost \$2.4 billion. Of the total current funds budget, 87.2% is unrestricted and 12.8% is restricted. The current funds budget is made up of the University's operations fund, as well as the operating budgets for the Hospitals, auxiliaries

Revenues

The total FY2009 current funds revenue budget is approximately \$2.4 billion, which is 5.7% higher than the FY2008 original budget. The chart below on the left shows the current fund revenue budget by source of funds. The chart on the right shows the further distribution of the sales and services budget by type.

Sales and services are the largest contributor of current funds revenues at 41.9%. Sales and services are comprised of three types of activities: Hospitals & Clinics, other auxiliary enterprises, and educational activities. The chart above at the right shows the distribution of sales and services revenues (including patient revenues) for each of these three types of activities.

Sales and services of Hospitals & Clinics, totaling \$578.6 million, make up 57.5% of the sales and services budget for current funds revenues. These are funds primarily derived from the combined clinical operations of the University.

Gross tuition and fee revenues of \$585.9 million are the second largest source of revenue and contribute 22.7% of the gross current funds revenue budget. Scholarship allowances, or financial aid, reduce revenue from student fees to \$403.6 million or 16.8% of total net revenue, making it the third largest contributor of total net revenue. Tuition and fees of \$544.9 million are recorded in the operations fund and another \$40.8 million are in continuing education.

State appropriations, at \$481.8 million, comprise the third largest source of gross current funds revenue. However, once student fee discounts have been applied to gross fees, state appropriations becomes the second largest contributor of total net current funds revenues at 20.1%. State appropriations include \$437.9 million in the operations fund for the general mission of the University, and \$24.1 million for University Hospitals & Clinics. Restricted appropriations for the Missouri Institute of Mental Health, Missouri Kidney Program, the Missouri Research and Education Network (MOREnet), Missouri Health Network, and Spinal Cord Injury Research total approximately \$19.8 million.

Federal, state, and other grants and contracts combine for total projected revenues of \$324.5 million, or 13.5% of the total current funds revenue budget. These revenues are an estimate of the funds that will be received during FY2009.

Other revenue sources include federal appropriations (primarily for the Agricultural Experiment Station and Cooperative Extension), investment income, gifts and endowment income (primarily for student aid and chairs/ professorships), recovery of facilities and administrative costs (recovery of F&A), which are generated from externally funded grants and contracts, and miscellaneous income.

Table 2 on the following page shows the percentage distribution of current funds revenues by major revenue source for each campus, UM Extension, the Hospitals, and the system administrative units. Tuition and fees net of financial aid is the largest source of revenue for the St. Louis and Kansas City campuses. State appropriations is the largest contributor for UM Extension, the Missouri University of Science and Technology campus, and UM System Administration. Sales & services of educational activities and auxiliary enterprises is the largest source of revenue for the Columbia campus and the Hospitals (Patient Services). Endowment and investment income is the largest source of revenue for University-wide Resources. State appropriations are the second largest source of funds for the Columbia, Kansas City, and St. Louis campuses, the Hospital, and University-wide Resources. Net tuition and fees are the second largest source for Missouri University of Science and Technology, federal appropriations are second for UM Extension, and miscellaneous income is the second largest source for the UM System Administration.

Table 3 shows the percentage distribution of the FY2009 current funds expenditure budget by object of expense for each campus, UM Extension, the Hospitals, and the system units.

Primary program activities of instruction, research, and public service make up 47.6% of current funds expenditures at the University of Missouri. Hospitals account for 23.9% of the expenditure budget. Auxiliary enterprises make up 8.1% of the expenditure budget and the remaining 20.4% of budgeted expenditures are spent for support services, scholarships, and operation and maintenance of the physical plant.

Table 5 on the following page presents the 2009 University of Missouri consolidated current funds revenue budget by major revenue source, and the expenditures and transfers budget by object of expense and by major program classification, for the following fund groupings:

- Operations
- Auxiliary Enterprises, Service Operations, and Continuing Education
- Self Insurance Funds
- Hospital Operations
- Restricted Expendable Gifts, Endowments, and State Appropriations
- Restricted Grants and Contracts (fiscal year estimate of project budgeted funds)

Tables 6 through 13 provide the same information for each campus, as well as for the Hospitals, University of Missouri Extension, University of Missouri System Administration, and University-wide Resources.

University of Missouri System FY2009 Operations Fund Budget Summary

The operations fund is where the majority of the University's instructional and public service activities are budgeted and accounted for. The operations fund comprises approximately 42.6% of the University's current funds budget. State appropriations are recorded here, with the exception of those appropriations that are line itemed for the University Hospitals and the other Curators' programs. The majority of student fees are also recorded in the operations fund. State appropriations and tuition and fees are the primary sources of revenue in the operations fund. Historically these two sources of funds accounted for over 91% of operations fund revenues, before scholarship allowances are applied. However, in recent years, they have dropped to about 86% of gross revenue. In the past few years, they have dropped to about 82% of gross revenue.

revenues. When scholarship allowances, or financial aid, are netted against tuition and fees in accordance with GASB 34/35 the net student fees contribution declines to 41.4% of net revenues making them the second largest contributor at \$423.8 million. State appropriations, in the amount of \$437.9 million, is the largest source of net revenue at 42.8%. Together, they fund 84.2% of the operations fund budget. Table 14 displays the FY2009 operations fund budget by source of funds and expenditure category along with the revenue contribution and the expense distribution percentage.

million are 22.7% of the total. The remaining 1.0% presents net transfers from the operations fund to other funds. Internal transfers into the operations fund are primarily from continuing education and auxiliaries and internal transfers out are to support research and endowed chairs matching commitments. The result is \$6.4 million of internal transfers into operations. The \$16.4 million of mandatory and non-mandatory transfers out are primarily to the plant fund for debt service, research park improvements, maintenance, repair, and replacement projects for energy management and information technology, including the next generation network.

Table 16 displays the percentage distribution of the operations fund expenditure budgets by object of expense by campus for FY2009. Compensation accounts for the majority of the expenditures for each unit except University-wide resources, which primarily budgets funds that are used for cooperative programming, much of which is transferred to the campuses during the year.

As shown in Table 17, 60.8% of the recurring expenditures for the University system in the operations fund budget are devoted to the primary missions of instruction, research, and public service. When academic support is included, this distribution reaches 73.1%. Other classifications are student services, with a system total of 7%, institutional support, of 11.6%, operation & maintenance of physical plant of 9.6%, and scholarships and fellowships less than 0.1%. Most student aid is shown as scholarship allowances, a reduction of tuition and fee income, instead of as scholarships and fellowships expenditures, as directed by GASB 34/35.

FY2009 Other Curators' Programs Budget Summary

In addition to the general state appropriation for the operations of the University, the Curators receive line-itemed state appropriations for the University Hospitals & Clinics, Missouri Rehabilitation Center, Missouri Kidney Program, Missouri Institute of Mental Health, Missouri Telehealth Network, Spinal Cord Injury Research, Missouri Research and Education Network (MOREnet), and the State Historical Society of Missouri.

Table 18 presents summary budget data for the Missouri Kidney Program, Missouri Institute of Mental Health, Missouri Telehealth Network and Spinal Cord Injury Research. These programs are recorded as restricted current funds.
